

Dear colleagues and friends!

The National Academy of Sciences of Ukraine cordially congratulates the Bulgarian Academy of Sciences and all Bulgarian scientists on the 150th anniversary of the Academy's foundation.

Established in 1869 as the Bulgarian Learned Society, your Academy has become a leading scientific organization of the Republic of Bulgaria and intellectual center, coordinating scientific work, solving the issues of culture, economics, linguistics, scientific, social and economic progress, including those issues that are related to the integration of the country into the European Union.

Over the years, the Academy has been held the glorious career of creating research institutes and institutions, united the best scientists and professionals involved in a wide range of basic and applied research who has been meeting international standards. The Bulgarian Academy of Sciences should be proud of many accomplishments enriched the world of science and culture.

Outstanding achievements made by your scientists in the field of physics, mathematics, informatics, space research, nanotechnology and nanomaterials have gained deserved recognition and appreciation to the Republic of Bulgaria inside the country and abroad. A worthy place is occupied by research in the field of natural sciences, astrophysics, molecular biology, medicine.

Bulgarian scientists have obtained significant results of in the field of humanities and social sciences. They include general works on economics, law, history, philosophy, language and literature, art and culture.

There are substantial contribution made by Bulgarian scholars who were brought up by the Bulgarian Academy of Sciences in the solution of practical problems of the national economy, agriculture and innovation. Implementation of development allows creating and developing new technologies in the production of innovative high-tech products, determining the path of economic, environmental and social development of the Republic of Bulgaria.

We are pleased to state that our academies' scientists have close creative ties.

The Bulgarian Academy of Sciences and the National Academy of Sciences of Ukraine have fruitfully interact not only on a bilateral basis, carrying out direct links between institutions and agencies, but also within the international scientific organizations. We hope that our cooperation will continue successfully in the future.

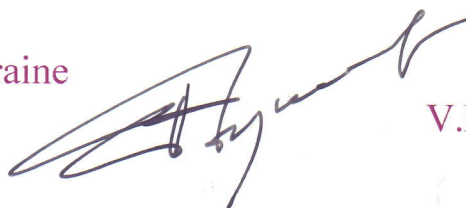

Dear colleagues, on the day of your significant anniversary we sincerely wish you good health, happiness, prosperity, new creative success and achievements.
