

Prof. Julian Revalski, DSc,
President of the Bulgarian Academy of Sciences

Zagreb, 10 October 2019

Dear Professor Revalski,

On behalf of the members of the Croatian Academy of Sciences and Arts and mine personal, I would like to extend my warmest congratulations on the 150th anniversary of the Bulgarian Academy of Sciences.

During this turbulent as well as prosperous time in which many strong foundations of national identity were established, the long-term friendship between our two academies, the Bulgarian Academy of Sciences and the Croatian Academy of Sciences and Arts, has strengthened even more and, therefore, settled the solid frame for the extension of the fruitful cooperation in many years to come.

Regarding the great importance of the Bulgarian Academy of Sciences within the academic community, I wish you many successes in your future work.

Once again, dear professor Revalski, I sincerely congratulate you the 150th anniversary of the Bulgarian Academy of Sciences.

Sincerely yours,

President

Professor Velimir Neidhardt
