

## Documents

---

- 1) Kassem, A.F., Althomali, R.H., Anwar, M.M., El-Sofany, W.I.

**Thiazole moiety: A promising scaffold for anticancer drug discovery**

(2024) *Journal of Molecular Structure*, 1303, art. no. 137510, .

- 2) Khedr, A.M., Mandour, H.S.A., Wahdan, K.M., El-Ghamry, H.A.

**New nanometric metal complexes based on thiazole derivative as potential antitumor a structural elucidation, docking simulation and biological activity studies**

(2024) *Journal of Molecular Liquids*, 401, art. no. 124665, .

- 3) Yücel, N.T., Asfour, A.A.R., Evren, A.E., Yazıcı, C., Kandemir, Ü., Özkay, Ü.D., Can, Ö.D., Yui

**Design and synthesis of novel dithiazole carboxylic acid Derivatives: In vivo and in sili Inflammatory and analgesic effects**

(2024) *Bioorganic Chemistry*, 144, art. no. 107120, .

- 4) Evren, A.E., Nuha, D., Dawbaa, S., Karaduman, A.B., Sağlık, B.N., Yurttaş, L.

**Novel oxadiazole-thiadiazole derivatives: synthesis, biological evaluation, and in silico**

(2023) *Journal of Biomolecular Structure and Dynamics*, .
